Abstract (en)

[origin: US9227743B2] A method for producing a package with the following steps is described. Forming of a container (13) in a web of a first web material (7); subsequent sealing of a cover (14) onto the container produced within an outer contour of the package to be produced; and thereafter cutting of the container (13) out of the first web material (7) along the outer contour of the package to be produced and outside of an outer contour of the cover (14) sealed thereon.
