Abstract (en)

A covering panel for surfaces comprising a covering slab (2) provided with a laying surface (20) to be laid facing towards the surface to be covered (A). A plastically-deformable compensating element (4) is fixed on the laying surface (20) and rests removably on the surface to be covered (A), plastically deforming when compressed between the covering slab (2) and the surface to be covered (A), such as to adapt a shape thereof to a shape of a hollow space defined between the laying surface (20) of the covering slab (2) and the surface to be covered (A).
