Abstract (en)
[origin: EP2006508A2] The supply unit has a power unit (2), which is enclosed by a sound absorbing cap (1), which comprises an air inlet shaft (15) for cooling air and exhaust shaft (10) for exhaust air. An exhaust arrangement is provided, which comprises two separate exhaust units, that is an interior exhaust (18) for the unit cooling in a housing (3) for the power unit and an external exhaust (17) for the cap cooling outside the unit housing.
