Abstract (en)

[origin: WO2007121856A1] A water conduit fitting with a water outlet and a jet regulator inserted therein and connected to the fitting body is characterized in that, to secure the jet regulator (18) in the water outlet (11), a fastening plate (14) and a moulded seal (16) arranged, between the jet regulator (18) and the fastening plate (14) and expanding radially when pressure acts axially, can be inserted into the water outlet (11) in addition to the jet regulator (18), and in that the fitting body (10), in the region of the water outlet (11), has on the inside a step (12) as a stop for the inserted fastening plate (14) and a groove (13) for accommodating an outer section of the moulded seal (16) expanding radially when pressure acts axially.
