Abstract (en)
[origin: EP2009745A1] The device has a spring clamping unit (6) comprising a spring part (16) and a carrier part (18) with a fixing leg (24) and a mounting bracket (27). The mounting bracket extends in a direction of a spring zone (30) with respect to the fixing leg and outreaches the spring zone with a mounting extension (26). The mounting extension is fastened to a connection zone by a screw connection, in its region that outreaches the spring zone. The screw connection is accessible by the attached spring part. The connection for mounting the clamping unit comprises a threaded hole.
