Abstract (en)

[origin: EP2011399A1] The invention relates to an oven door including at least one door frame (10) and at least one door panel (12). The door panel (12) is integrated within the door frame (10). The door frame (10) grips directly an outer portion of at least one door panel (12) on three circumferential sides of said door panel (12). The door frame (10) is formed as a one-piece injection moulded part made of a temperature-resistant material. The door panel (12) is made of a temperature-resistant material and at least partially of a transparent material. Further, the invention relates to a method for producing said oven door.
