Abstract (en)

[origin: DE102006022932A1] An inner element (IE) (1) to be positioned on the inner side of an aquarium glass pane (AGP) (5) has a surface (1b) facing this inner side. An outer element (OE) (2) to be positioned on the outer side of the AGP has a surface (2b) facing the outer side of the AGP. The IE and OE are mutually attracted through the effect of magnetic force. An independent claim is also included for a method for cleaning aquaria glass panes.
