Abstract (en)

[origin: US2007241105A1] A condiment cup assembly and methods for attachment to a beverage container is provided. The assembly includes a beverage container cover having an outer edge and a perforation centrally positioned, a drinking straw inserted through the perforation, a condiment container including a vertical sidewall defining a top opening for accessing a storage space of the condiment container, and an integral attachment arm connected to the vertical sidewall, the integral attachment arm including a coupling portion. The condiment container is attached to the beverage container cover via the coupling portion.
