Abstract (en)

[origin: KR20090005129A] Repair laminates and methods of repairing or forming various structures utilizing the repair laminates are described. The repair laminates may be useful for repairing or forming a variety of structures, and are particularly well suited for repairing mounting brackets on automobile panels. In an embodiment, a repair laminate is described, the repair laminate comprising: a layer of pressure sensitive adhesive having two opposing surfaces; a polymeric support backing bonded to a first surface of the pressure sensitive adhesive, the support backing having a thickness of at least 0.75 millimeters; and a rigid reinforcing layer bonded to a portion of the second surface of the layer of pressure sensitive adhesive. The repair laminates as described herein may be used to make or repair a variety of structures.
