Abstract (en)

The present invention provides a carrier device (200) having an adjustable strap (220) comprising a carrier body (210), at least one strap (220) and a reel device (10) is provided. At least one strap (220) movably disposed on one side of the carrier body (210). The reel device (10) disposed at one side of the carrier body (210), the reel device (10) having at least one spool (14), at least one retractable wire (18a) and a latch (16). The retractable wire (18a) is coiled on the spool (14) and the latch (16) is disposed on the reel device (10) and releasably limits a relative movement between the retractable wire (18a) and the spool (14) which allows an user to quickly and easily adjust the length of the strap (220) to the desired length.
