Abstract (en)

[origin: EP2014568A1] Cleaning clothes (5) are held in a packaging box/case (1). On a cover (2) and/or a storage space (3) there are markers (13) for coordinating the packaging box/case with a vacuum cleaner nozzle. The markers take the form of shapes (14) for holding vacuum-cleaner-nozzle wheels. The vacuum cleaner nozzle assigned to the packaging box/case for removing a multilayer cleaning cloth (4) triggers the opening and/or closing of the cover.
