Abstract (en)

[origin: EP2014595A2] A versatile printing press has two parallel presses (02, 02') covering six broadsheet sides. The printed feeds are deflected at right angles, by adjustable turning bars (07, 07') to two former modules (12, 12') where the feeds are cut and turned to single feeds. The formers include slitting blades and staplers as required. The presses are able to handle a range of paper sizes, e.g. broadsheet, tabloid etc.
