Abstract (en)

[origin: WO2007128408A1] The invention relates to a method for testing the compatibility of a control device (SG) for a hands-free device (FE) for a mobile telephone (MT) in a vehicle, in which the part number of the control device (SG) is stored in a storage device (SPE), wherein the part number is read out from the storage device (SPE), wherein the part number is transmitted over a data link to a vehicle-internal display device (ANZ), and wherein the part number is displayed on the vehicle-internal display device (ANZ).
