Abstract (en)

[origin: EP2017177A1] The device has a magazine for accommodating folded carton blanks (15, 15a), which are pre-fabricated as a carton stack. A pneumatic vertical vacuum gripper (10) and a pneumatic horizontal vacuum gripper are provided for guiding the carton blanks, when a carton is unfolded, where the device is integrated with a fork gripper or a pallet gripper. The fork gripper has forks for engaging the carton and one of the vacuum grippers, where the forks have arms for holding the engaged carton from above to transport the carton. The arms and one vacuum gripper are moved vertically and/or horizontally.
