Abstract (en)

[origin: EP2017392A2] In its interior, a standard container (1) has three holding shelves each running parallel to each other in the container's longitudinal direction with compartments for holding components to be stored. A center shelf (2.2) is fixed in the container. Two side shelves (2.1,2.3) are each designed to move outwards on a preset track crosswise to the container's lengthwise direction.
