Abstract (en)
[origin: EP2019267A2] The cladding has a picture or pattern arranged as photo print, screen print, stencil print or foil print, and transfer picture or hand paint on a sheet metal under an enamel layer. The picture, pattern, sections or details of the picture exhibits a color, which changes during temperature admission of coloring. The enamel layer is transparent, and is color coordinated with the picture or pattern organization. The equipments such as spark protective plate and fire protective plate are provided at the cladding.
