Abstract (en)
[origin: EP2020651A1] The remote control has an electronic component (4), a touch-sensitive touch panel, an energy storage and a transmitter (6). The two glass plates (1,2) are interconnected in the remote control, and electronic component attaches the touch panel, energy storage and the transmitter. One of the electronic components is a positional sensor, which is connected and disconnected against the positioning or adjustment of the remote control. The touch panel is a Touch pad(3).
