Abstract (en)

[origin: WO2007134312A2] A light (20) that inserts into a cup holder (102) of an inflatable product (100). The cup holder light (20) includes a lens (24) and a housing (22). In an embodiment, the lens (24) may be arranged so that it lights the interior of an inflatable product (100) when the light is placed in a cup holder (102) or another pocket in the inflatable product. In this manner, the inflatable (100) glows when the cup holder light (20) is illuminated, providing a unique nighttime effect.
