Abstract (en)

[origin: US7742361B2] Method for switching the time zone indicated by a timepiece (1) in order to switch from an initial time zone to a modified time zone, having the following steps: the user enters a time switch command (268) by means of the crown, the hours' and minutes' hands indicate the time of the modified time zone (274), whilst the seconds' hand indicates a city corresponding to the selected time zone, the timepiece automatically returns (280) to the initial time zone and indicates the time of the initial time zone (202), or the time of the modified time zone is retained by means of a command from the user.
