Abstract (en)
[origin: EP2022900A2] The fitting (1) has a one-piece housing (2) with connectors (21, 22) for supplying cold and hot water, respectively. The housing has an outlet for mixed water. A water guiding module (3) has a preformed hollow profile with inlets (34, 35) for cold, hot and mixed water, respectively. The module is connected with the housing, in a leak proof manner. The module has a receiver (5) for a functional component e.g. thermostat element. The module has a water channel (32) that partially and radially surrounds another water channel (33). The housing and/or the profile are made of plastic or metal. An independent claim is also included for a method for manufacturing a sanitary fitting.
