Abstract (en)

Beam for fixing a sidewall (6-7) of the awning (2) of a caravan, motor home (1) or the like, which, in the longitudinal direction, consists of a single part (13) or of several parts mounted in each other's prolongation (13A-13B), characterised in that it is formed of a strut (16) and a clamping lath (17) which are hinge-mounted in relation to each other in their longitudinal direction, whereby the strut (16) can freely hinge between a clamping position in which a canvass (10) can be clamped between a clamping element (28) of the strut (16) and a clamping element (29) of the clamping lath (17) and an open position in which the above-mentioned clamping parts (28-29) are removed from each other and whereby operating means are provided to move the clamping lath (17) from one position into another position and means to lock the clamping lath (17) in the clamping position.
