Abstract (en)

[origin: EP1862575A1] The invention relates to a domestic appliance (1), especially to a dryer or a washing machine. To facilitate the equipment of the appliance with a possibility for steam treatment the invention proposes that the appliance has a steam unit (2) for producing water steam, especially hot or superheated steam, which is fed to a treatment area (3), especially to a drum, wherein the steam unit (2) is constructed as a module.
