Abstract (en)
[origin: WO2007089926A2] The present invention provides a pharmaceutical composition comprising oxcarbazepine .and at least one pharmaceutical excipient, wherein the oxcarbazepine in the composition has a broad particle size distribution. The broad particle size distribution of oxcarbazepine in the pharmaceutical composition is preferably a multi-modal oxcarbazepine particle size distribution, preferably with an enhanced oxcarbazepine dissolution rate.
