Abstract (en)

The invention relates to an easy-opening packaging for sheet-like articles (10) folded and arranged in a pile (12), which comprises a wrapping (13) surrounding the said pile of articles, the wrapping (13) defining a given perimeter (P) and being formed by a sheet cut to size and closed around the said pile of articles (11) along said perimeter (P), and which comprises a tape (14) for favouring tearing and opening of the said wrapping (13), at least along a certain section of its perimeter (P), this tape being applied on the inner side of the wrapping (13), i.e. the side directed towards the pile of articles packaged inside it.
