Abstract (en)

[origin: EP2031164A2] Locking component (1) comprises a locking surface (3), a base body (4) and an insert (5) which partly forms the locking surface. An independent claim is also included for a vehicle having a lock with the above locking component. Preferred Features: The insert is fixed in a holder (6) of the base body. The insert has a stopping plate (7) which forms the locking surface.
