Abstract (en)  
[origin: WO2008000239A2] Disclosed is a device, particularly a slide-casting device, for producing profiled concrete elements (1), especially a prestressed or mild steel-reinforced concrete element (1), comprising a mold (6) that is movable on a production line (5) and is provided with profiled inserts, and at least one compacting apparatus which supplies concrete to the mold (6) and can also be moved on the production line (5). At least one feeding mechanism (7) is provided for introducing at least one wave-shaped reinforcing bar (8) into the concrete.
