Abstract (en)

[origin: WO2007141136A1] The invention relates to a control unit for a household appliance, in particular for a washing machine with a window (10) with at least one associated key, display (18), or the like inside a window opening (12, 14), with a board (22) at a distance behind the window (10) for mounting at least one electrical or electronic component (24, 26, 28), and with a sealing element (34) between the window (10) and the board (22) by which the at least one electrical or electronic component (24, 26, 28) is protected against water or the like, wherein the sealing element (34) is attached to the window (10) of the control unit.
