Abstract (en)

[origin: DE102006029773B3] Method for the construction of a condensation installation comprises placing tubular bundles (2, 3) with their sheet metal bases (5, 6) holding heat exchanger tubes in supports (10) on a stepped strut (11) or a pre-assembled part (1) so that the longitudinal sides (12, 13) of the sheet metal base are welded together using a seam root before the tubular bundle delta is raised from the pre-assembled part and placed in an insertion position.
