Abstract (en)  
[origin: EP2033932A1] The high-lift industrial truck (10) has three independently-acting linear lift drives, which are provided with a lower unit fixed in a linear direction. An upper unit is provided, which moves in the linear direction. The lower units are fastened on a frame (12) such that their support points have a distance from each other in the longitudinal and transverse direction of the industrial truck. The height-adjustable upper units are connected with a rigid lifting platform (22) and a load receiving device (24) is attached to the lifting platform.
