Abstract (en)
[origin: EP2036528A2] The container has a corpus (1), and a neck (2) that is provided at a side of the corpus, where the container is made of plastic e.g. polyethylene. The corpus has a rectangular cross section in a horizontal section. A connector is provided for connection with tubes (7, 8) and has a T-shaped cross section. The connector is provided with connection boreholes, where a pipe-shaped extension unit is connected with one of the boreholes.
