Abstract (en)
[origin: EP2036723A2] The unit has a set of supporting devices (17) engaging a frame, where the devices are arranged in a web-fed printing machine. A set of rollers of inking units (14) and/or damping units (15) of a set of printing units (11) are supported on a set of bearing walls (18) in such a manner that the walls are displaceable to release an inlet to cylinders and the rollers of the printing units. A set of transmission cylinders (12) and a molding cylinder of the printing units are supported against side panels (16).
