Abstract (en)

The system has an attachable plate shaped element (1) with a plaster base (3) for retaining a plaster layer (4). The plaster layer is provided on the plaster base, where a fibrous layer is provided as the plaster base, and a loam layer, a lime layer, a lime cement layer, or cement plaster layer is applied on the plaster base. A fabric lining is provided on both sides of the plaster layer. The plaster base is arranged as a support element (2) on a wooden structure, where fiber directions of the individual layers are arranged at an angle to each other. An independent claim is also included for a method for manufacturing elements of a dry construction system.

Abstract (de)

Trockenbausystem für Innen- und Außenanwendungen mit aneinander anreihbaren Elementen(1), wobei die Elemente einen Putzträger(3) zur Aufnahme einer Putzschicht(4) aufweisen. Als Putzträger(3) kann eine fasrige Schicht, z.B. ein Holzweichfaseraufbau vorgesehen sein. Auf dem Putzträger(3) ist eine Lehm-, Kalk-, Kalkzement- oder Zementputzschicht(4) aufgebracht.
