Abstract (en)
[origin: EP2040340A2] The connecting device (1) has an elastic contact unit (4) for applying pressure contact on an electrical conductor. A locking unit (5) is provided for locking a connecting device in a connecting device holder. Another contact unit (7) is provided for connecting another electrical conductor. The locking unit has a triangular elevation (8), where out cropping sides (9,10) that come in contact with connecting device holder have elevations of different lengths.
