Abstract (en)

[origin: EP2042460A2] The former arrangement (1) has a former arrangement module (10) with a base element (100) that is mounted on a stationary element (2) of the rotary printing press. A former (200) is supported on a self-supporting element (500), where the supporting element is fastened with an end (501) of the basis element and extends self-support across the direction of movement (BR) over the former.
