Abstract (en)
[origin: WO2008011954A1] The invention relates to a cheese press (10) with pressing instruments arranged on a stand (12) for the pressing of press molds (24) that are filled with curd, with the pressing instruments designed to exert a horizontally directed pressing force to a horizontal pressing stack (30) that is formed from multiple pressing molds (24) that are arranged next to each other in the direction of pressing.
