Abstract (en)

[origin: WO2008010701A1] The present invention relates to a method for manufacturing a sheet pile wall from a steel plate material (2) of predetermined dimensions, comprising the steps of : defining a desired profile (20,40) for the sheet pile wall; and bending the plate material at desired locations (23-38,44-56) with an angle-bending machine in order to bend any desired profile.
