Abstract (en)

[origin: WO2008012473A1] Installation and methods for recovering and/or launching an underwater or marine vehicle (1), particularly an AUV, from a recovery base (5). The installation comprises a floating cage (10) defining a housing (16) that at least part of said vehicle (1) can enter, first hauling means mounted on said cage and capable of hauling said vehicle into said housing, via a first flexible link, typically a cable (22), and second hauling means (7) intended to be mounted on the recovery base (5) and capable of hauling said cage via a second flexible link (9, 70) different from the first one.
