Abstract (en)
[origin: EP2045531A2] The baking oven has an oven front element (8) made of sheet metal material, which comprises an operating surface (4) and a front strip (10) binding both sides of the oven door in a single piece manner. The operating surface is firmly connected with a cross beam (20), which is made of sheet metal material. The cross beam forms a component of the operating and display surface (3).
