Abstract (en)
[origin: EP2045533A2] The baking-oven has a baking-oven door (7) with a front surface (12) that is flush-mounted and arranged surface-concisely at an oven front (11) in a closing condition. The door is surrounded by operating- and indicating surface and by front bars (10) that are connected with the operating- and indicating surface. The bars exhibit flanges (14) for arranging the door on both sides of the surface of the door parallel to movement direction (13). The flange exhibits fixing elements (16) that rear-project front-sided limitation of an oven muffle to form a processing area of the oven.
