Abstract (en)

[origin: DE202006011393U1] The arrangement has multiple solar modules (SM) with multiple base supports that are spaced apart in a row in a horizontal direction. A longitudinal support arrangement runs long range in a longitudinal direction. The longitudinal support arrangement includes two longitudinal supports (LT1,LT2) that are spaced apart transverse to the longitudinal direction, where module mounting (MT) is held at longitudinal supports. An independent claim is also included for a solar system with a mounting arrangement.
