Abstract (en)
[origin: EP2048643A2] A display apparatus and a control method thereof are provided. The display apparatus (100) displays a first image data (A), received from a computer (200) through a first interface (A), and a second image data (B), received from the computer through a second interface (B), together. Accordingly, a single monitor can display image data from two or more interfaces together when the monitor receives image data from a single computer through the two or more interfaces.
