Abstract (en)

Provided is a new-type recordable DVD medium characterized in having medium characteristics not defined in the DVD-R standards and having compatibility with the DVD-ROM standards. Since information on the new-type recordable DVD medium can be played back by an existing player, even when content data protected by CSS (Content Scrambling System) is recorded on the new-type recordable DVD medium, the recordable DVD medium can be used for content distribution service using a kiosk terminal.
