Abstract (en)  
[origin: WO2008021937A2] Included are embodiments of a method for communicating data. One embodiment, among others includes receiving a request from a user to contact the at least one data provider associated with at least one listing stored in a user-defined directory and in response to receiving the request, facilitating activation of instant messaging logic, where the instant messaging logic is configured to refrain from displaying presence information associated with the user.
