Abstract (en)
[origin: EP2050693A2] The container has modules (10) connected with one another in a fixed manner for formation of a module interconnection with dimensions of an international standards organization standard container. The modules exhibit side walls, a base, a cover, and retaining units (12), that are arranged at a base frame (11). The retaining units are arranged at edges of the base frame for taking up connecting devices. The side walls of the module comprise a door that is designed as double-leaf door, and an electric current unit is arranged in an inner side of the module.
