Abstract (en)

A process for the production of a fabric made of super-extra-fine yarns of high-quality animal fibre, which may not otherwise be produced industrially, includes spinning single-ply or double-ply extra-fine yarns (1), consisting of an intimate blend of high-quality animal fibres and water-soluble synthetic fibres; doubling said extra-fine yarns (1) with respective water-soluble yarns (2), weaving the doubled yarns (3) and dissolving said water-soluble synthetic fibres and said water-soluble yarns (2) by means of a slightly acidic aqueous solution at the temperature required for the dissolution to obtain fabrics consisting of super-extra-fine yarns (1') of pure animal fibres only.
