Abstract (en)  
[origin: EP2053171A1] The pumping pit (1) has a collection chamber (4). The pumping pit is provided with a curved shape, particularly the shape of a ball, in sections, particularly in an upper area. An anchoring or installation device (2) is provided on the outer side of the pumping pit. A holding device (7) is arranged at the pumping pit in the collection chamber for receiving a pump (5) which is carried by anchoring or installation device.
