Abstract (en)

[origin: EP2055831A1] The belt unit has a fabric belt (1) defined in a longitudinal direction and comprising a pair of end portions joined to form a continuous belt. The belt comprises an outer paper side (6) facing towards a corrugated board and an inner driven side (8) for receiving drive forces applied during an operation of the belt unit. The end portions define a top surface plane and a bottom surface plane at a pair of distances below a pair of planes with a respective pair of pressed-in U-shaped clamps, where one of the distances is greater than the other distance.
