Abstract (en)
[origin: WO2008028598A1] The invention relates to a children's high chair (10) which has a seating (12), a back rest (14) and supporting legs (20, 22). In order to be able to store the highchair (10) in a space-saving manner when not in use, the seating (12), the back rest (14) and the supporting legs (20 22) can be swiveled together into a common plane about a common axis (24).
