Abstract (en)  
[origin: WO2008027021A1] The invention relates to modular construction systems consisting of profile (10), connector (21) wherein the said profiles (10) are fixed via the said connectors (21) to form connection points (22). The said connector (21) contains a main body (6) in the inner part (29), a connector (21) is formed by means of outer surface plates (20) connected between the said profile (10) and the said main body (6) and connected onto the said main body (6) in a manner allowing demounting and re-mounting.
