Abstract (en)

[origin: WO2008025536A1] A high-pressure device (100) is described, particularly a continental deep sea aquarium, having a shaft (10) extending into the earth's crust (11), and a pressure unit (20) disposed within the shaft (10) and having an internal pressure chamber that is pressure-resistant to exterior overpressure. Methods for the production and for the operation of such a high-pressure device (100) are also described.
